Stat 230, Spring 2016
Homework 7: More MLE and Logistic Regression

Due MONDAY 3/14/16 11:55 pm.
Submit solutions for: Ch 7: D7,10

Read and understand:
Ch 7: E1-11 (pretty quick I hope since we will talk about Evans/Schwab in lecture)
Discussion 1,4. The other discussions questions are interesting and worth reading as well.

Do Labs 11 and 12 in the text, including questions 6 and 7 for Lab 11. For lab 11 you will want to use some of the code you wrote for the last assignment, so you might want to start with the .R file you wrote last time and add to it, deleting any code you aren't using.
